Times Business Excellence Awards 2025-26...!!!

The prestigious Times Business Awards 2026, hosted by the Times of India Group on 26th February, brought together distinguished leaders, entrepreneurs, and change-makers from across sectors to celebrate excellence, innovation, and impact in their respective fields.

Among the key highlights of the evening was the recognition of the Managing Trustee of G M Global School, who was conferred the **Youth Icon in Holistic School Education**. The award acknowledges visionary leadership, institutional growth, and a forward-thinking approach to modern education.

The recognition reflects the steady rise of G M Global School as a progressive CBSE residential institution committed to academic rigor, structured discipline, and holistic development. Under dynamic leadership, the school has integrated future-focused initiatives such as training in Artificial Intelligence, coding, robotics, structured mentorship systems, and technology-enabled learning, while maintaining strong foundational values.

The award also comes in the backdrop of the institution's recent Award of Excellence for Holistic and Sustainable Growth Programs, further strengthening its position as a school that prioritizes balanced and measurable development.

Speaking on the occasion, the Managing Trustee emphasized the evolving educational landscape shaped by digital transformation and Artificial Intelligence, reiterating the institution's commitment to preparing students not just for examinations, but for leadership in a competitive global environment.

The honour marks another significant milestone in G M Global School's journey toward building a benchmark educational institution rooted in discipline, innovation, and sustained excellence.

Managing Trustee Mr Pranav Shetty taking part in the Panel Discussion during the Times Business Awards organised by the Times of India Group.

"Leadership Voice at Times Business Awards 2026"

The panel discussion focused on the evolving business and education ecosystem, the impact of digital transformation and Artificial Intelligence, changing student demographics, and the growing need for structured, value-driven institutions. Representing the education sector, the Managing Trustee articulated the importance of discipline, institutional systems, and future-oriented learning models in preparing students for a competitive global environment. The dialogue positioned G M Global School as an institution that not only implements innovation but contributes meaningfully to national educational discourse.

Following the panel discussion, the Managing Trustee was conferred the **Youth Icon in Holistic School Education**, presented by **Saina Nehwal**, former World No. 1 in badminton. Receiving the honour from an internationally celebrated sportsperson symbolized excellence, perseverance, and leadership — values that align closely with the philosophy of G M Global School.

The combined impact of thought leadership on the panel and formal recognition at the ceremony marked a significant milestone, reinforcing G M Group's growing prominence in the CBSE education landscape with two premier institutions namely G M Vidyaniketan Public School and G M Global School.
